

P.P.R.

Our online ordering system, **PICK.PAY.RIDE.**, is available for your client's team, making it simple for the team manager to collect orders, manage payments, and even collect dues!

1- OR 2-STEP PROCESS

P.P.R. is offered in a 1- or 2-step process. The 2-step process allows the team manager to survey his team or club for prospective interest and choices of apparel before offering a final order. This additional step can be superseded by advancing to the 1-step process which allows teams to immediately enter the payment stage.

COLLECTING DUES

In addition to ordering Louis Garneau Custom Apparel, the P.P.R. System also functions as a portal for the team manager to collect dues from his members. Dues can be added to custom orders as mandatory items. Dues will be mailed directly to the team manager. This option really makes P.P.R. an all-inclusive team organization center.

STATIC LINKS

The P.P.R. System has the ability to offer a static link to the team's store. This html link can be posted on social media sites or emailed to friends and families to help generate larger orders. In addition to static links, communication with team members can be done through the system by importing the team's address book.

AUTOMATIC ORDER DEADLINES

With P.P.R., the team manager determines the order deadlines. These deadlines help organize the workflow and ensure a timely order.
